

Middleton will discuss entering a Grade 9, 10, 11 or 12 student as a private candidate for extra CIE IG, AS or A Level qualifications based firstly on the following criteria:

1. The student must be currently on roll and following a full IG or AS/A Level timetable with us
2. In the judgment of the school, taking the exam will not adversely affect the student's wellbeing and existing studies

Then Middleton will consider:

- If the entry is for a subject we already offer at IG and A Level then the student can be entered for the exam in the October/November season and take their exam alongside other Middleton students sitting for the exam.
- If it is for a subject we do not currently offer here then the school will need to carefully consider this on a case by case basis. Issues to take into account may include, but not be limited to, any practical exam requirements, any internal assessment as part of the qualification, and the impact of running the exam on the wider school community.

Costs for private entries will be reviewed on an annual basis, with particular regard to courier and currency fluctuations.
